Designers and editors reveal a handful of favorites from around the world—some fun, some functional, all well designed—that will add high style to your home.

### Earth Tones

Marin, California-based British designer Ruth Hyndman's ([www.ruthhyndman.com](http://www.ruthhyndman.com)) colorful ceramic Hefty bowls, \$52 each, combine earthiness and modernism.

### Clean Cut

A stainless-steel blade glides backward or forward over a pad of paper for customized paper slicing. It's \$90 at Stitch ([www.stitchchicago.com](http://www.stitchchicago.com)) in Chicago.

### Piece of History

Slender arcs mark the \$99 Prospector model canoe ([www.garrettwade.com](http://www.garrettwade.com)), replicated from the originals used in 17th- and 18th-century North America.

### Tea Time

Linen tea towels are hand-printed with a delicate repetition of forks and spoons. They're \$38 each at the Scotland-based store Papa Stour ([www.papastour.com](http://www.papastour.com)).
